

Welcome Back Sycamore!

Finally, school is back! I am very excited to see you all after so long! I am sure you have a lot of exciting things to tell me and most importantly tell your friends. During the summer, I have been on some adventures with my family too, which I can't wait to share with you. We will do a lot of show and tell when we get back just to catch up on all of the time we have lost together.

Some of you will already know me very well because I taught you last year. However, we have got a lot of new members coming into our amazing Sycamore team this year - including Mrs Collier. Before you meet us, we are just going to share a few of our favourite things...

...These are a few of my...
